Rocío Biosca, owner of the home in Etsy store FireflyFeelingBright, told SHOP TODAY. Some people would just hang their face masks on their ears, but that is very uncomfortable, and if you put it on a table or on any surface, it could easily become contaminated. While accessories like these mask masks put a more convenient experience of all kinds environmental, experts say this new fashionable trend may also be encouraging. In favor of any accessories that make a mask more comfortable or appealing set, Daniel Morgan, MD, a professor of epidemiological and public health and infectious diseases at the University of Maryland School of Medicine, told SHOP TODAY. However, Morgan says that the dog (or any used accessories) should not modify or change the function of the mask. While lightweight and covered decorative chains are fun to use as an Accelerator, it is important to keep in mind the actual purpose of the masks. To have any benefit, masks require a material to serve as a filter – such as clothies – which fully covers the nose and mouth, he explained. Dr. Ruth Bush, a vascular surgeon and associate at medical education at the University of Houston College of Medicine, is also in favor of the trend and has his own association of uniform face masks. As mask-wearing becomes mandated in states across the country, Bush says it makes sense to invest in accessories masks. Since we have to wear them enough, why not look good? he said. If you decide to opt for fun styling or sequence, you should always ensure that your accessories can be properly washed. Even if I have to declare, above everything, whatever you do, just wear a mask, Bush added. This simple act shows respect for your neighbor, the people you love, your community, and the world.
